ABOUT ME

I'm Marvellous Omoleye, a passionate Full-Stack Developer and Designer. I specialize in creating seamless, user-friendly web applications that blend design and functionality. Let's turn your ideas into innovative digital experiences!

WORK

Web Development 2024 - 2025

LCPD (School Management System Development)

- Led the design and development of a school management system, handling student records, attendance, grades, and communication features. Focused on seamless UX, SEO optimization, and custom branding.

Junior Developer Intern 2025- 2025

Enjema Integrated Software Service Limited

- Gained hands-on experience in software development within a fast-paced consultancy and startup environment. Collaborated with experienced developers to contribute to live projects, while building core skills in coding, testing, and software lifecycle management.
